

REMARKS

This paper includes an amendment that is supplemental to the Preliminary Amendment filed on September 27, 2004. New Claim 50 is added. Support for the Claim can be found for example in the originally filed claims. No new matter is added.

Restriction

The Office Action dated February 1, 2007, set forth a restriction requirement and listed various groups. The Examiner stated that the listed group was not exhaustive and that the Applicant may choose to elect a single invention by identifying another specific embodiment and the Examiner will endeavor to do the same.

Applicants respectfully note that it is improper to require a restriction to inventions within a claim. Applicants treat the restriction requirement as a requirement for the Applicants to provisionally elect a species. Applicants hereby provisionally elect new Claim 50 as the provisionally elected species.

March 1, 2007

Respectfully submitted,
/George A. Gilbert, Reg. No. 35,881/
